Allowing Pop-up's for Internet Explorer and Google

If you can't get past **ENTER** then the most likely problem is that your computer settings are not allowing Pop-ups and this is stopping you from entering the module.

Firstly, make sure you are using **INTERNET EXPLORER** as your internet browser.

Press the **ALT** and **T** keys on your keyboard at the same time or click on the **Tools** Button to check for **Internet Explorer** Pop-up Blockers.
